**STATE WITNESS READY TO TESTIFY AGAINST ACTOR**

Film Star Committed Bigamy at Palm Springs Is Contention

WASHINGTON, June 2.—Powerful testimony in support of the state's charge that Valentino, film actor, is a bigamist would be resumed this afternoon dependent upon whether his attorneys would be engaged in another case, as they said they expected to be.

When adjournment was taken yesterday after a day of colorful testimony in support of the state's charge, J. Walter Harby, justice of the peace, said the hearing would be resumed today if the actor's attorneys were ready and if they were not, the case would be taken up again tomorrow morning.

The stockholders of a Joint Stock Land bank have six per cent on their capital stock and six per cent on the bonds issued to fifteen times the amount of their capital stock, which makes forty-one per cent gross. Added to that the premium on the bonds one per cent makes thirty-six per cent.

The expense of handling a Joint Stock Land bank is very small as deals entirely in land, but it is not permitted to lend more than \$10,000 per person, and the person borrowing must be an actual resident on the farm that is offered as security. The Joint Stock Land bank can lend to any land owner up to \$50,000 if the appraised value regarded as ample security.

The Joint Stock Land bank can lend in the state in which it is organized and in no other state. This would give the bank all the whole of the state of New Mexico and also it could doubtless have all of west Texas if it so desired. It would surely be adding another factor in the upbuilding of the city by making it further a financial center.

**Rapid Growth of Banks**

The capital stock of such banks has increased rapidly in recent years. The bank at Salina, Kansas, was organized with \$25,000 capital, and at the end of three years had increased its capital stock to a million dollars, which showed it to lend sixteen million dollars. The bank at Memphis, Tenn., has an increase in capital stock from \$25,000 to \$1,250,000; that at Chicago from \$25,000 to \$1,000,000.

The only expense, not borne by the members, is usually a manager and a stenographer-bookkeeper.

It is the belief of the chamber of commerce that with the organization of such institutions centering here that the \$250,000 of paid capital which is required could easily be had by letting the people of New Mexico and West Texas know of the benefits that would come to them through the establishment of such banks in a central location like Albuquerque.

It would mean six per cent twenty-year loans for the lands that will be reclaimed in the middle Rio Grande valley, for the lands under the Las Vegas project and for all productive stock ranches and farm lands of this state. Western Texas and Arizona, the appraised value of the productive agricultural and grazing lands is the basis for the bank.

**Reduction of Car Fare Will Bring Wage Cut to Men**

CHICAGO, June 2.—Reduction of car fare from 8 to 7 cents June 14, decreed by the federal court yesterday, will be followed by reductions in the wages of car men according to officials of the service. The wage cut will be determined early next week, these officials said.

William F. Quinn, president of the employees' organization, said his attempt "to show the world on the men" will be met by a strike.

The seven-cent fare decree means a saving of \$20,000 a day to car riders, it was estimated today.

Cunningham, a race track follower, arrested last night in connection with the killing of Clarence Peters under mysterious circumstances at Twelfth observation squadron at Fort Dix, were burned to death this morning when their airplane crashed against the side of a mountain and was destroyed by fire.

Cunningham, after a three hour conversation with the Westchester county authorities in New York, was arrested as a material witness. Ward ran screaming into the street, where neighbors extinguished the flames. She was burned severely.

Detectors were searching for the wounded man whose name, as well as his probable hiding place, was revealed by Cunningham, according to the authorities.

**PHINGER RECALLED**

The record of Cunningham recited stories of plagues made by Ward at various tracks and his acquaintanceship with many well known businessmen and gamblers. One story was that Ward disappeared some time ago and that detectives discovered him at a race track near battemore.

Details of the information were given by the governor and Justice of the Supreme Court, J. B. Davis, who said the information came from the testimony of the witness Johnson bill, which would provide for construction of a dam at Boulder canyon, providing both flood control and a means of power and irrigation development for that area.

SANTA FE, N. M., June 2.—Governor McMath said he had been advised to wait to designate the place for the August 1 meeting of the Colorado river commission and had decided to name Santa Fe.

Both the governor and Justice of the Supreme Court, J. B. Davis, who is chairman of the Colorado river commission, have been made to hold the session at Bishop's lodge, a summer tourist inn, near Baltimore according to the story.

She obtained a revolver from a steward and ordered Symon from the room. She said that she would have shot him had not other passengers interceded.

Mrs. Bradley stated that Broadhurst was suffering from pneumonia at the time of the assault and was powerless to defend himself. Symon occupied the cabin opposite the room of Mrs. L. C. Bradley, his attorney, as he believed he had shot himself. His fall was broken by heavy wire netting over a skylight through which he plunged. He was only slightly injured, his doctor said today.

### ARMY LEADER PLANS ATTACK ON OBREGON

Forces Await Arrival of Former Revolutionist

NEW ORLEANS, June 2.—The present whereabouts and actions of Felix Diaz, a Mexican military leader, expelled from that country for his activities against the Obregon government about 18 months ago, was today a matter of widespread conjecture following announcement by Guillermo Ross Diaz, secretary that the former revolutionist would again assume command of the forces opposing the Obregon government and the re-establishment of the constitution of 1857. Ross further declared that it was Diaz's intention to take the field at an early date at the head of an army now being formed, and that 15,000 men, fully armed and equipped, awaited the arrival of their leader.
